Quality, Value and Performance

NOVEMBER 2024

KITS & UPGRADES

DELIVERING QUALITY PARTS FOR JAGUAR AND LAND ROVER APPLICATIONS TO THE TRADE

This catalogue has been compiled to facilitate the identification of repair components which may not always be readily accessible through Land Rover. It encompasses Service and Repair Kits strategically assembled for streamlined purchasing and to enhance the completion of tasks with the provision of essential ancillary components.

Included are parts aimed at repairing 'unserviceable parts', alongside offerings of hard-to-identify Oils and Fluids, as well as rapidly consumed service items, all presented within a convenient quick-reference format.

Furthermore, this resource features products not available through traditional Land Rover part numbers. This includes instances where items are grouped or kitted for enhanced convenience, or where adherence to best practices dictates the necessity of complementary installations.

EXTENDED WARRANTY

So confident are we in the quality of our PR2 and PR2PRO ranges that we offer a **24-month / 24,000 mile end user warranty** and a **30-month distributor warranty** on all PR2 products, which often greatly exceeds the warranty period offered by the manufacturer.

ABOUT ALLMAKES 4X4

Allmakes 4x4 is one of the leading specialist wholesalers of quality parts for Jaguar and Land Rover vehicles. Based in the UK, being ISO9001 accredited, and with expertise in global distribution, Allmakes 4x4 is perfectly placed to deliver to businesses wherever they are in the world.

Allmakes 4x4 delivers maximum value by offering OE, OEM and PR2 quality parts as a first choice ensuring Jaguar and Land Rover vehicles are maintained to the highest standards.

While our range contains a vast array of options to suit different budget and quality preferences, Allmakes 4x4 is best known as an Original Equipment Specialist working alongside dozens of the worlds most recognised and respected brands.

ABOUT OUR SERVICE KITS

ALLMAKES 4X4 SERVICE KIT These kits are covered by 12 months warranty and include high quality products, manufactured with low-tolerances and sourced to Allmakes 4x4 specification. Branded components may be substituted where no satisfactory aftermarket equivalent is available.

ALLMAKES 4X4 PR2 SERVICE KIT These kits are covered by 24 month warranty and only include Branded components supplied by Original Equipment Manufacturers. These kits are the very best for quality, value and performance that the aftermarket has to offer and meet an extensive range of selection criteria.

VIN & ENGINE NUMBERS Several of our kits specify a VIN number (Vehicle Identification Number) and it is important when ordering to ensure that the last 8 characters of your VIN correspond with the guide. The VIN can usually be found on your vehicle's registration document, or on the vehicle itself. Where (E) is declared, this refers to the Engine Code of the vehicle. This is different to the VIN and is usually found on the engine of the vehicle.

Ignition Leads

These silicone HT lead sets are designed to meet or exceed the original equipment specification. The silicone cable has minimal interference with maximum suppression, it is also resistant to water, oils, chemicals and high temperatures. High quality with ISO 3808 class noise suppression performance.

ABOUT OUR WHEEL BEARING KITS

ALLMAKES 4X4 SERVICE KIT These kits are covered by 12 months warranty and include high quality products, manufactured with low-tolerances and sourced to Allmakes 4x4 specification. Branded components may be substituted where no satisfactory aftermarket equivalent is available.

ALLMAKES 4X4 PR2 SERVICE KIT These kits are covered by 24 months warranty and only include Branded Components supplied by Original Equipment Manufacturers. These kits are the very best for quality, value and performance that the aftermarket has to offer and meet an extensive range of selection criteria.

Swivel Housing Kits

These swivel housing kits from Allmakes 4x4 are a convenient way to ensure you have all the parts needed to replace your Land Rover's swivel housing. Each kit is for one side only.

Castor Corrected Swivel Housing

These castor-corrected swivel housings come in a handed pair and are direct replacements for vehicles using the FTC5366 swivel housing.

Swivel Housing Gaiter Kits

They have mounting holes positioned to provide 3 degrees of additional castor. The swivel housings are sourced from the OEM supplier and machined to our specifications.

Steering and suspension components are subject to extremely high load levels, which frequently results in increased part wear and shorter replacement intervals. Required to perform reliably under these conditions the parts are therefore made in genuine MEYLE-HD quality which means optimised products offering maximum service life and outshining OE solutions.

Clutch Servo Kits

This kit will make your driving a more pleasurable experience and reduce the effort you'd normally put in from driving your Defender. No more painful knees or feet when you are stuck in slow-moving traffic! Designed, engineered and manufactured to the highest standards, Red Booster is a mechanism system that makes it possible for all Defenders to have a servo-assisted clutch.

Working in a similar way to the braking system with a servo-assisted system, it is mounted between the pedal and master cylinder and uses a vacuum from the inlet manifold to reduce the amount of pressure needed on the pedal to operate the clutch.

The left-hand drive version works similar to the right-hand drive system. The location of the clutch pedal of a left-hand drive Defender is on the far corner of the vehicle and with hardly any space the entire unit had to be redesigned to fit without cutting and drilling your vehicle.

ABOUT EBC BRAKE DISCS

- 100% British cast and machined high quality product
- Wide aperture slots that draw cool air under the pad surface
- Slots that expel all dirt dust and debris from the braking area
- Blind drilled dimples that eliminate cracking common with through drilled sport discs whilst helping maintain perfect pad contact

EBC Brake Discs

Performance sports discs - 100% British cast and machined high quality product.

TF637	360mm upgrade	TF Performance	TF CDG
TF638	340mm upgrade	TF Performance	TF CDG

These upgrade kits provide a significant increase in braking performance by fitting new calliper brackets, brake pads and upgraded discs.

The original brake calliper is retained and no brake bleeding is required. Choose your pad type and upgrade the 320mm brake discs with one of the following options.

It is also possible to upgrade to the even bigger 360mm brake discs. This kit is more comprehensive as it requires disc, pads, callipers and calliper mounting brackets. It is essential that this kit is only fitted to vehicles with 19" diameter wheels.

NB - Suitable for vehicles with 320mm brake discs, which includes most 2.7 Ltr TdV6 & 4.0 Ltr Petrol Discovery 3 & Range Rover Sport 2005 - 2009.

FEATURES AND BENEFITS

- PVC protective covering.
- OEM Specification fitting plating with 968 hour salt spray protection.
- UK manufactured and assembled product.
- Eliminate spongy feel
- Superior resistance to abrasion and corrosion
- 100% TUV, DOT, ADR and ISO approved
- Every brake line is 100% pressure tested to 2000 PSI once fully assembled

Terrafirma Goodridge brake hoses increase braking efficiency and remove the spongy feel under arduous conditions. With an unmatched reputation backed by champions worldwide, there is no reason to choose anyone else.

Stainless steel brake hoses can be entirely corrosion resistant, especially with stainless steel fittings. Developed for motorsport applications where braking performance must be maintained in harsh conditions and at extreme temperatures, stainless steel braided hoses are more durable and considerably stronger. For on road or off-road, the benefits will be instant with more precise and confident braking, reliability and longer life.

Terrafirma have teamed up with the industry leader Goodridge to produce a full line up of the best quality stainless braided brake lines.

For over 40 years, racers from across the globe have turned to Goodridge for products to out-perform the competition. Drivers, riders and teams have been pushing the limits with Goodridge since 1969.

CONSUMABLES

Ensure the long-lasting performance of your Land Rover with our selection of oils, fluids and lubricants for routine maintenance.

LIGHTING

Illuminate your drive with high-performance lighting options designed for safety and visibility in any condition. Whether you're upgrading or replacing, our selection provides reliable options no matter the conditions.

7

OSRAM Bulbs

OSRAM

UP TO 110% MORE LIGHT!

The NIGHT BREAKER UNLIMITED bulbs set new standards in terms of performance. Up to 110 % more brightness, a light cone up to 40 meters longer and 20% whiter light compared to standard halogen lamps – the perfect precondition for safe and fatigue-free driving. Because of their improved features, NIGHT BREAKER UNLIMITED bulbs ensure improved visibility and significantly better response times.

OSRAM is the global No.1 in automotive lighting.

Almost half of all the passenger cars manufactured worldwide every year are equipped with OSRAM light sources and on average there are around 200 bulbs fitted in every car. As the number one innovation leader in automotive lighting, OSRAM offer the latest design and technology with the highest performance and quality.

Whether you just need a like for like OE quality replacement or you want to upgrade your car bulbs to provide more light on the road or to give a longer lifetime the OSRAM range has a solution for you.

HIGH-PERFORMANCE LED AUXILIARY LIGHTS ARE PERMITTED FOR USE AND IMPROVE VISIBILITY ON ROADS

Whether on-road or off-road - The OSRAM LED Light bars impress with powerful performance and long service life. Not only do the LED Light bars provide reliable and brilliant light improving visibility for drivers, above all, they also improve overall safety on the road. Thanks to high-quality materials such as the aluminium housing and the stable polycarbonate lens, they are particularly light and at the same time robust and resistant.

Designed for both far and near-field illumination.
For widespread illumination in the near field and spot illumination in the far field.

Designed for a far field illumination.
For a focused illumination in the far field of the vehicle.

COMPACT, ROBUST AND DURABLE

When driving in off-road conditions, durability and quality are much sought-after attributes. The LED Driving Cubes from OSRAM have a robust polycarbonate lens and can stand up to the most difficult demands of off-road applications. The far field illumination achieves impressive illumination on dark field and forest paths, off-road and off the beaten tracks.

Compact and robust with a long lifespan. When it comes to durability and ruggedness, exceptional quality is called for when using the retrofit working light in off-road conditions. The hard-wearing polycarbonate lens meets the toughest demands and reliably defies wind and weather in every terrain.
